

3rd LINA General Assembly

15–16 June 2023

Faculty of Architecture of the University of Ljubljana

1. What is LINA?

32 LINA members will meet in Ljubljana for the 3rd General Assembly: come to learn about the programme, meet our members and the team, and discuss possibilities for spatial experimentation!

The European platform LINA is a network connecting relevant institutions with emerging practitioners and thinkers who work at the intersection of architecture and other fields related to spatial culture: it aims to promote up-and-coming talent. LINA's goal is to steer design and building processes towards regenerative practices and principles of de-growth in line with the values of the European Green Deal.

A growing alliance of museums, universities, research networks, foundations, triennials, biennials, and other European and Mediterranean organisations—LINA members—carries out a series of events taking place all over Europe. The LINA Architecture Programme is supported by the European Union within the eligible countries of the Creative Europe Programme.
